

RUCKUS MANAGED NETWORKS

Managed Firewall

Overview

RUCKUS Managed Networks (RMN) offers Managed Firewall Services as an add-on to our Managed Wi-Fi Services “Elite” subscription tier service. A list of subscription part numbers is listed below.

NOTE: Managed Firewall is offered as an add-on service for Wi-Fi deployments, MFW is not offered as a stand-alone service.

Service Definition

Items Covered

- Configuration management
- Element monitoring (up/down)
- Patch management
- A Log collector can be configured upon request
 - Monitoring and response are the responsibility of the customer

Items Not Covered

- Active log monitoring
- Proactive IPS/IDS related items or any antivirus outbreaks, etc.

How to Order

To order MFW as an add-on service, first order the 1/3/5yr subscription per Door or per AP for the property, then add the matching 1/3/5yr MFW subscription.
