

# RUCKUS One<sup>®</sup> MDM & Active Directory Integration Service

Offered by RUCKUS Professional Services

## BENEFITS

- Accelerates integration of Active Directory, ChromeOS and MDM platforms with RUCKUS One
- Enables secure identity-based access across Wi-Fi and wired networks
- Simplifies deployment of authentication and device policy enforcement
- Reduces integration risk using RUCKUS proven implementation methods
- Speeds time-to-value with guidance from RUCKUS networking experts
- Aligns user identity, device posture, and network access policies

## FIND OUT MORE

Each R1 MDM/AD environment is unique. RUCKUS Professional Services offers this service to accommodate the common configurations. If your environment falls outside this service definition, we can work with you to develop a custom integration engagement tailored to your network requirements. For more information, please contact your RUCKUS Account Manager or Sales System Engineer, or submit an inquiry through the RUCKUS Professional Services Portal at this [link](#).

## REALIZE SECURE IDENTITY-BASED NETWORK ACCESS

Modern enterprise and education networks rely on identity-based access and device posture enforcement to ensure secure connectivity for users and devices. Integrating Mobile Device Management (MDM) platforms and Active Directory (AD) identity services with RUCKUS One (R1) enables organizations to enforce consistent authentication, authorization, and policy control across both Wi-Fi and wired network infrastructure.

RUCKUS Professional Services provides expert assistance to integrate third-party MDM platforms, including ChromeOS, and Active Directory services with the RUCKUS One cloud controller, enabling secure device onboarding, user authentication, and policy enforcement across the RUCKUS network.

Our experienced engineers guide customers through configuration, validation, and integration processes to ensure the RUCKUS One platform operates seamlessly with existing enterprise identity and device management systems.

## ORDERING INFORMATION

RUCKUS Professional Services offers standardized service tiers based on the number of access points being migrated from SmartZone / vSmartZone to RUCKUS One.
